

KDHE Site Brings Buyer, Seller Together to Develop Property

By Bridget Wilson
RedevelopKS

Are there areas in your community that are prime areas for development?

The RedevelopKS Initiative is an Internet-based database available for communities to list potential brownfields properties for sale in redevelopment areas. A brownfield is a desired

property for expansion, redevelopment, or reuse that may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. It is estimated that there are more than 450,000 brownfields in the U.S.

KDHE has received federal grants to develop a Web site to assist sellers, prospective purchasers, developers, and real estate agents to identify properties in the state available for redevelopment.

KDHE is often contacted by parties interested in a listing of brownfields properties to clean up, redevelop, and then sell. The RedevelopKS Initiative provides communities another mechanism to advertise these redevelopment areas that otherwise might not be considered by traditional developers.

RedevelopKS is soliciting communities to list properties on the Web site. Simply visit the Web site and click on "Sell a Property" to enter information about the property you'd like to list. Please visit the Web site at <http://www.redevelopks.org> or contact Bridget Wilson at (785) 291-3246.
